

ANNA ZAMORA-KAPOOR, PhD.

206.499.4193
anna.zamora-kapoor@wsu.edu

ACADEMIC POSITIONS

- 2016-19 Assistant Research Professor, Medical Education and Clinical Sciences, Washington State University.
- 2016-19 Affiliate Assistant Professor, Department of Pediatrics, Division of Adolescent Medicine, University of Washington.
- 2017-2019- Community Liaison, Health Equity Research Center, Washington State University.
- 2019- Assistant Professor, Department of Sociology and Department of Medical Education and Clinical Sciences (joint appointment, tenure-track), Washington State University.
- 2025- Associate Professor, Department of Sociology and Department of Medical Education and Clinical Sciences (joint appointment, with tenure), Washington State University.

EDUCATION

- 2006 BA in Sociology, *Licenciatura en Sociología*, Universidad de Barcelona, Spain.
- 2008 MA in Sociology, Columbia University, New York, NY.
- 2009 MPhil in Sociology, Columbia University, New York, NY.
- 2013 PhD in Sociology, Columbia University, New York, NY.
Dissertation: *Structural Explanation for Anti-Immigrant Sentiment: Evidence from Belgium and Spain*. Advisor: Saskia Sassen.
* 2014 Honorable mention, American Political Science Association, best dissertation in Migration and Citizenship.

POSTGRADUATE TRAINING

- 2013-16 Postdoctoral Fellow, Ruth L. Kirschstein National Research Service Award (T32) Department of Psychiatry and Behavioral Sciences, University of Washington-Harborview Medical Center.
- 2014-15 Senior Trainee, Leadership Education in Adolescent Health, University of Washington and Seattle Children's Hospital.

RESEARCH INTERESTS

Social determinants of health, health disparities, artificial intelligence and machine learning for health equity, community-based participatory research, quantitative methods, minority health, rural health, Hispanic/Latino health, American Indian and Alaska Native health.

PUBLICATIONS (*graduate student)

Google scholar metrics: 576 citations, h-index: 13, i10-index: 17.

RESEARCH FUNDING

Current

AIM-AHEAD Hub Specific Project (NIH) 12/01/25-11/30/26

This study addresses the lack of research in the implementation of artificially intelligent chatbots in rural clinics to improve health literacy and self-management of type 2 diabetes. It establishes a community-engaged partnership between Washington State University, a technology company; Clinic Chat LLC, and a rural clinic; Three Rivers Family Medicine.

Role: Principal Investigator.

Amount: \$150,000.

Obstructive Sleep Apnea and Cognitive Performance in American Indians (Alzheimer’s Association) 08/01/22-03/31/2026

This grant application aims to disentangle the association between obstructive sleep apnea and cognitive performance among American Indians. It proposes to use data from the Behavioral Risk Factors Surveillance System, the Sleep Heart Health Study, and the Cerebrovascular Disease and its Consequences in American Indians study.

Role: Principal Investigator.

Amount: \$150,000.

Funding history

AIM-AHEAD Research Fellowship (NIH) 10/01/24-09/30/2025

This award will train investigators to use the OCHIN Community Health Equity Database to improve health equity. I will use this opportunity to examine the role of sleep health (specific conditions: sleep apnea, insomnia, and hypersomnia) in cardiometabolic health disparities.

Role: Principal Investigator.

Amount: \$58,000.

AIM-AHEAD Fellowship Program in Leadership (NIH)

9/15/2023-06/15/2024

This award aims to train new leaders in artificial intelligence and machine learning to improve health equity. The results of this grant will be used as pilot data to request a larger grant and test the efficacy of an intervention aimed at increasing lung cancer screenings in a rural community.

Role: Principal Investigator.

Amount: \$50,000.

U54MD000507

Center for Excellence in American Indian and Alaska Native Health Disparities Alzheimer's Disease and Precision Medicine (NIMHD)

01/01/21-06/30/22

This grant uses data from the Cerebrovascular Disease and its Consequences in American Indians study to analyze the extent to which body mass index trajectories can help explain differences in cognitive performance over the life course.

Role: Principal Investigator.

Total direct costs: \$37,000.

P30AG059295

Native Alzheimer's Disease Resource Center for Minority Aging Research (NIA)

09/01/20-02/28/22

This pilot grant leverages data from the Cerebrovascular Disease and its Consequences in American Indians, from the Strong Heart Study, to examine sex differences in the associations between obesity and cognitive performance in Native elders. Results are expected to encourage the development of sex-targeted interventions among old American Indians.

Role: Principal Investigator.

Total direct costs: \$38,000.

U54MD011240-02S1

Research Supplement to Promote Diversity in Health-Related Research (NIMHD)

01/01/18-12/31/21

I used data from the National Longitudinal Study of Adolescent to Adult Health (Add Health) to examine risk factors for hypertension in American Indian and Alaska Native adolescents and determine the extent to which body mass index mediates other risk factors for hypertension.

Role: Long-term investigator.

Total direct costs: \$266,000

Food Insecurity as a Longitudinal Predictor of Diet Sensitive Cardiometabolic Risk Factors among American Indian and Alaska Native Adults (Center for American Indian and Alaska Native Diabetes Translational Research, University of Colorado)

08/01/20-07/31/21

This pilot grant uses data from the National Longitudinal Study of Adolescent to Adult Health to determine the role of food insecurity in the cardiometabolic health outcomes of American Indians and Alaska Natives, compared to non-Hispanic Whites, non-Hispanic Blacks and Hispanics.

Role: Co-Investigator.

Total direct costs: \$25,000.

Gestational Diabetes and Breastfeeding among American Indian and Alaska Native women (Center for American Indian and Alaska Native Diabetes Translational Research, University of Colorado) 08/01/20-07/31/21

This pilot grant leverages data from the Pregnancy Risk Assessment Monitoring System to explore gestational diabetes and breastfeeding patterns among American Indian and Alaska Native women. Findings will inform the development of culturally appropriate interventions.

Role: Co-Investigator.

Total direct costs: \$25,000.

Breastfeeding Initiation and its Disparities in Washington State (Health Equity Research Center, Washington State University) 01/01/18-12/31/18

This seed grant proposes to use data from the Washington State Department of Health to explore the role of birth facilities in the distribution of breastfeeding initiation outcomes among first-time American Indian, Alaska Native, and non-Hispanic White mothers in Washington State.

Role: Principal Investigator.

Total direct costs: \$12,000.

Outdoor Preschools: Innovations for Obesity Prevention (Health Equity Research Center, Washington State University) 09/01/17-12/31/18

This seed grant proposes to examine the health outcomes of outdoor preschools in the Seattle metropolitan area. Specifically, we analyzed the contribution of outdoor preschools to obesity prevention efforts, cost-effectiveness, and kindergarten readiness.

Role: Principal Investigator.

Total direct costs: \$10,000.

Outcomes Study of US ELAM Graduates, Ford Foundation 04/01/17-12/31/18

This study assesses the outcomes of US graduates from the Escuela Latinoamericana de Medicina (ELAM) in Havana, Cuba. We used quantitative and qualitative data to examine graduates' integration into residency training and medical practice, commitment to underserved populations and overall satisfaction with their graduate school experience.

Role: Co-Investigator.

Total direct costs: \$25,000.

New Connections, Robert Wood Johnson Foundation 09/01/16-08/31/17

This grant examines risk factors for type 2 diabetes in American Indian and Alaska Native adolescents and young adults, with data from the National Longitudinal Study of Adolescent to Adult Health (Add Health).

Role: Principal Investigator.

Total direct costs: \$50,000.

The Role of Breastfeeding in American Indian Infants' Gut Microbiota 01/01/15-06/30/16

This project aims to clarify the role of infant-feeding practices in the gut microbiota of American Indian infants, to initiate a research program aimed at identifying potential etiologies for excess weight gain in American Indians.

Role: Principal Investigator.

Total direct costs: \$20,000.

T32MH082709-01A2 (Comtois, PI)

06/30/13-06/29/16

Improving Mental Health Care in Safety Net Medical Settings (NIMH)

This post-doctoral training program aims to increase the number of early career investigators trained in mental health and addictions services research with a safety net medical setting focus, using an interdisciplinary approach.

Role: Postdoctoral Fellow.

Total direct costs: \$180,000.

HONORS

- 2005 Awardee, small grant to attend the First Summer Seminar on Sociological and Political Research, Harvard University, Cambridge, MA.
- 2006 Awardee, Spanish Ministry of Science and Education, Universidad de Barcelona, Spain.
- 2006-08 Awardee, Caja Madrid Fellowship, to cover all tuition and stipend costs for two academic years at Columbia University, New York, NY.
- 2007-10 Recipient, Cornerhouse Conference Travel Fund, Columbia University, New York, NY.
- 2007-13 Awardee, Paul F. Lazarsfeld Fellowship, Columbia University, New York, NY.
- 2007-13 Recipient, Summer Grant, Columbia University, New York, NY.
- 2008 Awardee, Alliance Grant for Doctoral Mobility, Columbia University, New York, NY.
- 2009-11 Awardee, Talentia Fellowship, to cover all tuition and stipend costs for two years at Columbia University, New York, NY.
- 2010 Recipient, Grant from the Cultural Cooperation program between Spain's Ministry of Culture and United States' Universities, University of Minnesota, Minneapolis, MN.
- 2010 Recipient, PhD Travel Matching Funds, Columbia University, to attend the 2010 World Congress of Sociology in Gothenburg, Sweden.
